Yoshida, M., 157

Zhang, S. W., 1

Subject Index of Volume 158

Abrasion
  pattern abrasion mechanism of rubber, 141
  rubber abrasion and wear, 213
  wet abrasion of polymers, 1
Adherence
  adherence, friction and wear of rubber-like materials, 87
Adhesional interaction
  PTFE transfer and thermoactivation mechanism of wear, 61
Aramid fabrics
  ballistic impact characteristics of aramid fabrics: the influence of interface friction, 229

Ballistic capture performance
  ballistic impact characteristics of aramid fabrics: the influence of interface friction, 229

Carbon fibres
  sliding wear performance of polyethernitrile composites, 157
COPNA resin
  tribological properties of COPNA resin, 171
Coherent transfer films
  friction and wear of PTFE – a review, 193
Composite materials
  friction and wear of metal–composite electrical contacts, 119

Elastomeric coatings
  tribology of viscoelastic machine elements, 185
Elastomeric layers
  tribology of viscoelastic machine elements, 185
Electric current
  friction and wear of metal–composite electrical contacts, 119

Fillers
  action of fillers in the modification of the tribological behavior of polymers, 41
  wear mechanism of PTFE composites in aqueous environments, 79
Fluoropolymer alloy
  wet abrasion of polymers, 1
Fretting damage
  velocity accommodation in polymer fretting, 15
Fretting wear
  fretting wear polysiloxane–polyimide copolymer coatings as a function of varying humidity, 29
Friction transfer
  PTFE transfer and thermoactivation mechanism of wear, 61

Glass fibres
  sliding wear performance of polyethernitrile composites, 157

Highly elastic rubber surfaces
  rubber abrasion and wear, 213
Humidity
  fretting wear polysiloxane–polyimide copolymer coatings as a function of varying humidity, 29

Inorganic compounds
  the action of fillers in the modification of the tribological behavior of polymers, 41
Isoprene rubber
  pattern abrasion mechanism of rubber, 141

Metal-filled composites
  friction and wear of metal–composite electrical contacts, 119

Nitrile rubber
  wet abrasion of polymers, 1

Polycarbonate
  velocity accommodation in polymer fretting, 15
Polyetheretherketone
  tribology of polyetheretherketone, 71
Polyethernitrile
  sliding wear performance of polyethernitrile composites, 157

Polymer fretting
velocity accommodation in polymer fretting, 15
Polymethylmethacrylate
velocity accommodation in polymer fretting, 15
Polysiloxane–polyimides
fretting wear polysiloxane–polyimide copolymer coatings as a function of varying humidity, 29
Polytetrafluoroethylene
friction and wear of PTFE – a review, 193
PTFE transfer and thermoactivation mechanism of wear, 61
tribological property of COPNA resin, 171
wear mechanism of PTFE composites in aqueous environments, 79
wet abrasion of polymers, 1
Pure metals
action of fillers in the modification of the tribological behavior of polymers, 41

Road tyres
rubber abrasion and wear, 213
Rolling contact
adherence, friction and wear of rubber-like materials, 87
tribology of polyetheretherketone, 71
Rubber
pattern abrasion mechanism of rubber, 141

Scission
friction and wear of PTFE – a review, 193
Sliding contact
adherence, friction and wear of rubber-like materials, 87
friction and wear of metal–composite electrical contacts, 119
tribology of polyetheretherketone, 71
Sliding wear
sliding wear performance of polyethernitrile composites, 157
Solid lubricants
action of fillers in the modification of the tribological behavior of polymers, 41
tribological property of COPNA resin, 171
Static deformation behaviour
ballistic impact characteristics of aramid fabrics: the influence of interface friction, 229

Vibration
velocity accommodation in polymer fretting, 15
Viscoelastic behaviour
tribology of viscoelastic machine elements, 185
